detax

Materials that matter

Welcome to the world of detax

For over 70 years, we have been dedicated to developing high-quality silicones and composites for dentistry and hearing aid acoustics. Our innovative materials empower patients to regain their quality of life and restore their smiles.

Ideas are our most important raw materials

Our passion for developing new products is our driving force – time and again, medical products from Detax set new standards in audio and dental technology.

Quality made in Ettlingen

Not only do we constantly invest in research, but we also manufacture our products ourselves in our factory on the company premises in Ettlingen. This gives us continuous control over what is most important to us in our work: its quality.

Partnership to go

Medical products from Detax are valued in over 100 countries around the world. To ensure safe distribution, Detax works with selected partner companies in the target countries.

The best thing about us is the we

A respectful attitude towards our business partners and our staff is important to us. Friendly appreciation determines the way we treat each other and people outside the company.

Detax is growing and our teams are also expanding, which is why we welcome every application. From initial contact and onboarding to update meetings and further training: We accompany and support every employee in all phases of their working life.

model T

Light-curing formulation for 3D printing of thermoforming models.

- Color: light blue
- Wavelength: 380 – 405 nm
- Technical product

Item No.	Product	Unit
02332 / 04322	Freeprint® model T	1.000 g / 5 kg

Parameters	Standard	
Working temperature for thermoforming sheets	-	≤ 195 °C
Flexural strength	DIN EN ISO 178 ¹⁾	> 80 MPa
Flexural modulus	DIN EN ISO 178 ¹⁾	> 1700 MPa
Hardness	-	> 83 Shore D

¹⁾ Resins: Determination of flexural strength (in keeping with the standard at room temperature)

gingiva

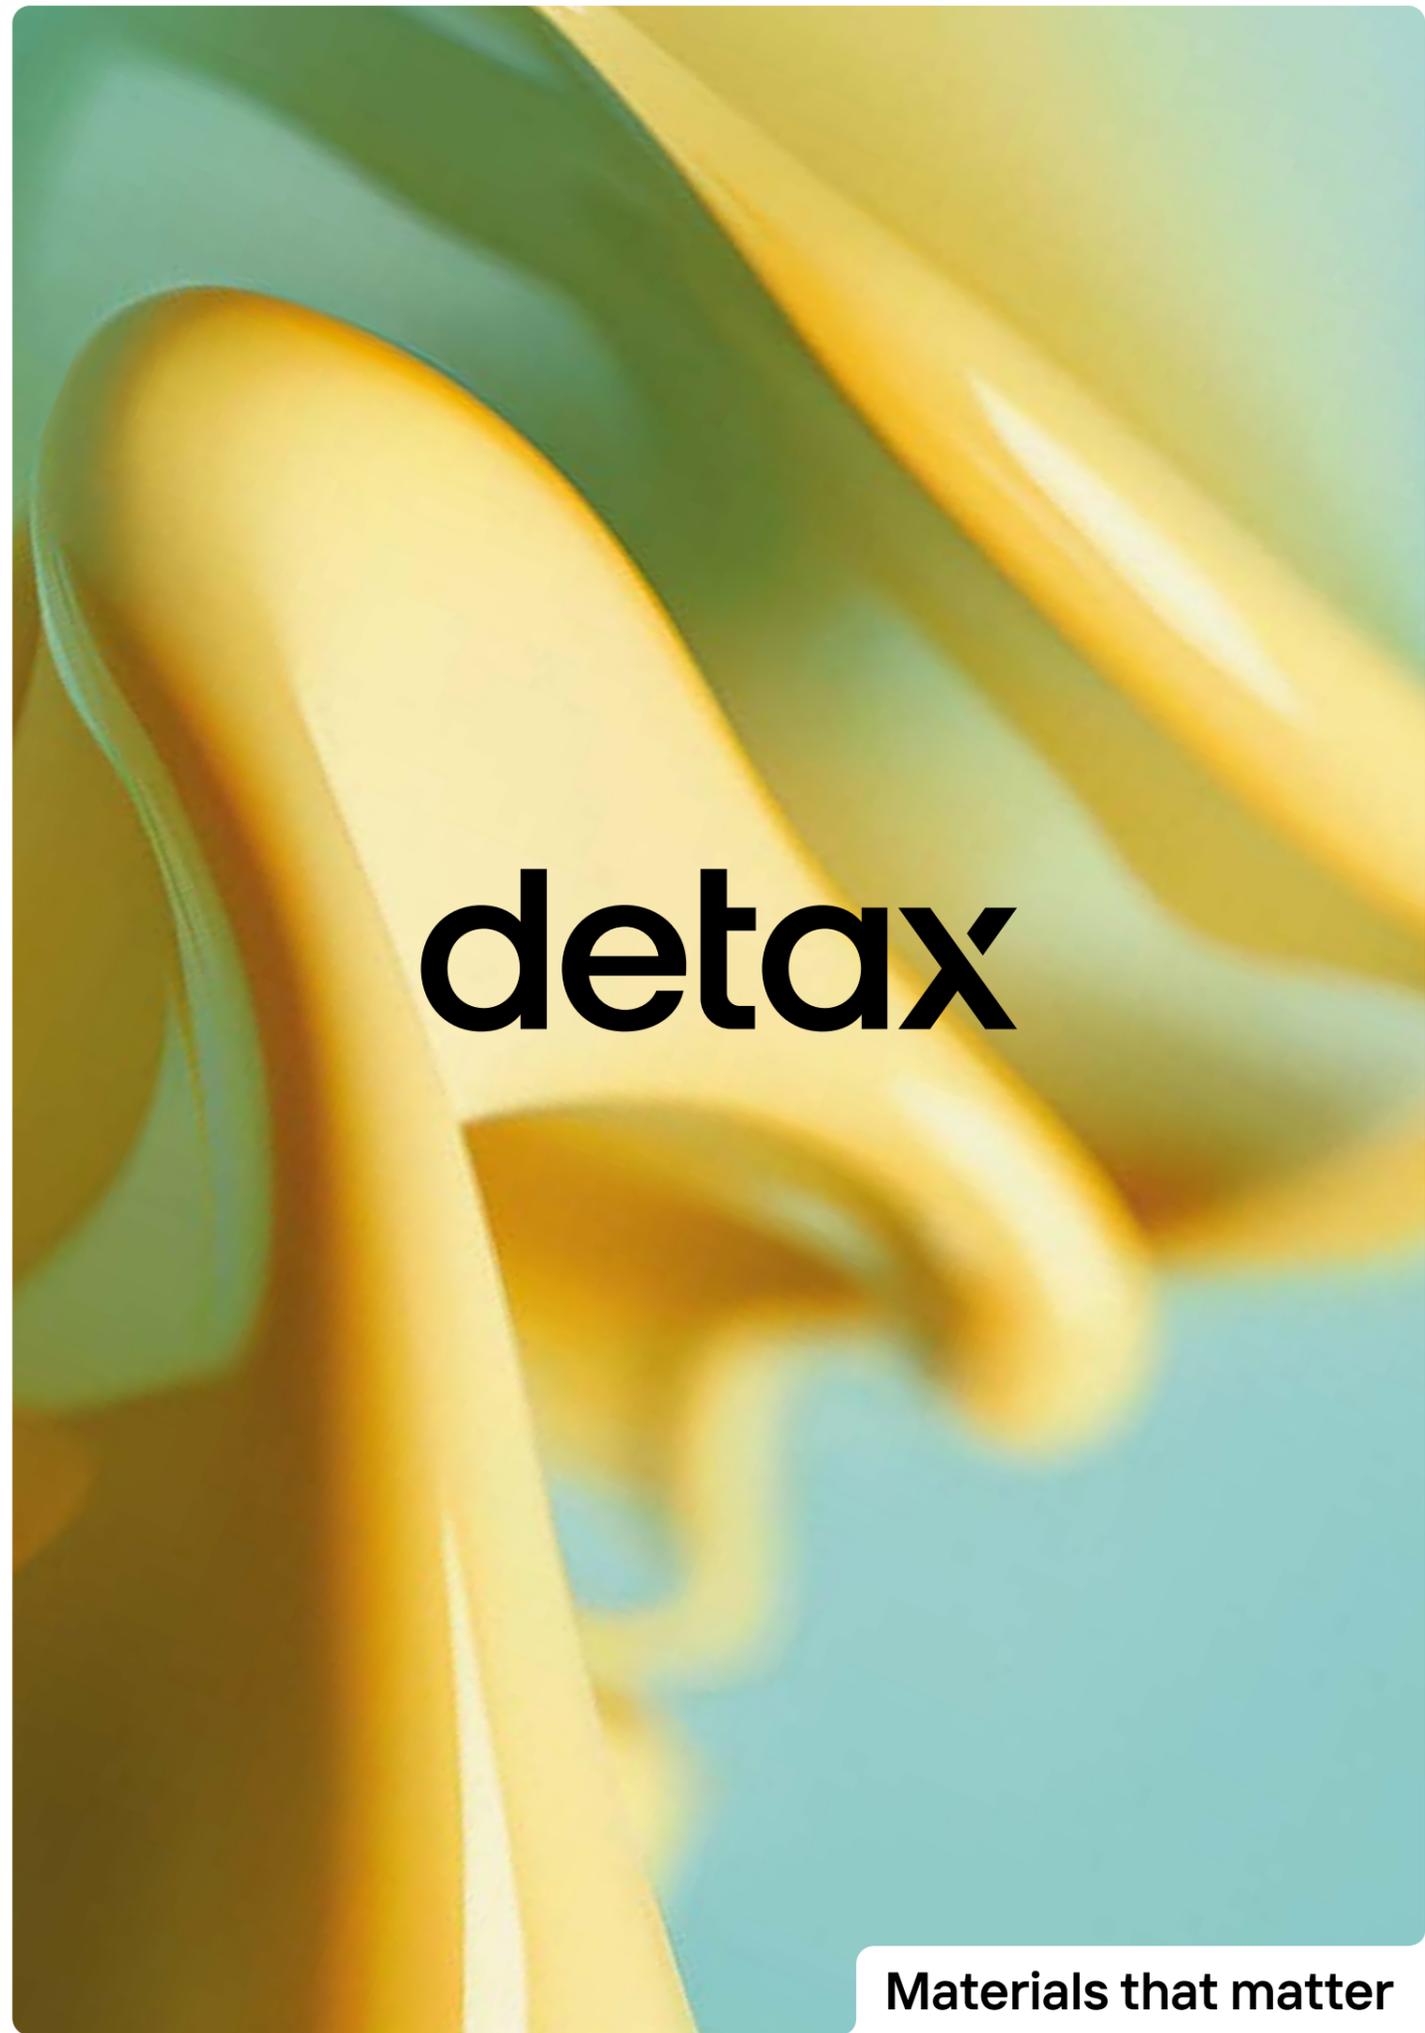

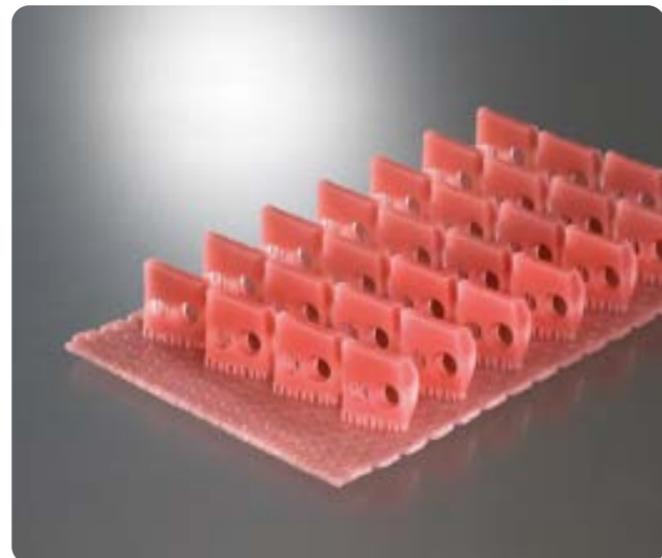

Light-curing formulation for 3D printing of flexible gingival masks for dental models.

-  **Color:**
gingiva
-  **Wavelength:**
380 – 405 nm
-  **Technical Product**

Item No.	Product	Unit
02820 / 02843	Freeprint® gingiva	500 g / 1.000 g

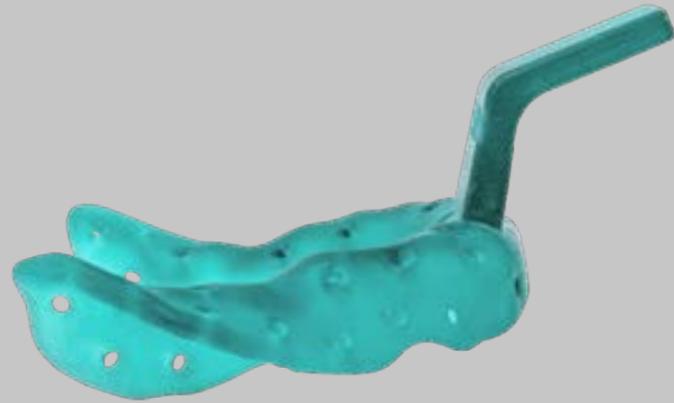

Parameters	Standard	
Tensile strength	DIN EN ISO 527-1 ¹⁾	> 3 MPa
Tensile elongation	DIN EN ISO 527-1 ¹⁾	> 90 %
Hardness	–	> 70 Shore A

¹⁾ Resins: Determination of tensile strength (in keeping with the standard at room temperature)
